About BKEP Pipeline, L.L.C. and BKEP Crude, L.L.C.

BKEP Crude, L.L.C. and BKEP Pipeline, L.L.C. (BKEP) are subsidiaries of publicly-traded Blueknight Energy Partners, L.P. BKEP is a leading provider of crude oil pipeline, terminal and storage services to customers in Oklahoma, Texas, and New Mexico. BKEP’s crude oil pipeline system transports crude oil between truck injection points, storage facilities, and refining plants. BKEP has developed an integrity management program to ensure the safe working condition of its pipeline systems, for more information on integrity management send an email to integrity@bkep.com. If you are a public official seeking information regarding BKEP’s emergency response plans please email erplan@bkep.com.

Products Transported and Counties Involved

Product	Description	Health and Fire Hazards	Counties Involved
Crude Oil	<p>Leak: Liquid Vapor: Heavier than air Can be flammable. Dark brown spots on the ground, dead vegetation or an oily sheen on top of the ground or floating on the surface of a body of water may indicate the presence of a leak in a crude oil pipeline system.</p>	<p>Health: Irritation of the eyes and skin may occur with exposure. Vapors may cause central nervous system effects. Fire: Crude oil is an extremely flammable liquid or vapor that is heavier than air. May accumulate in low areas, and may travel considerable distances to an ignition source.</p>	<ul style="list-style-type: none"> • Cooke • Grayson • Moore • Potter
