About CITGO Products Pipeline Company

CITGO Pipeline is a refined product transportation pipeline which begins in Nueces County at the Corpus Christi Refinery and delivers products to our Victoria Terminal and San Antonio Terminal. CITGO Pipeline is approx. 239 miles of 6" & 8" pipe with our beginning station, Nueces Station on to our Refugio Station then to the Victoria Terminal. From Victoria we have a station in Hochheim which is our Yoakum Station coming to Luling and then on to the San Antonio Terminal. There is an idle line from Luling to Austin which ends just south of Highway 71.

Products Transported and Counties Involved

Product	Description	Health and Fire Hazards	Counties Involved
Refined Products [Gasoline & Diesel]	Leak: Liquid Vapor: Initially heavier than air and spread along ground and collect in low or confined areas. Vapors may travel to source of ignition and flash back. Explosion hazards indoors, outdoors or in sewers.	Health: Inhalation or contact with material may irritate or burn skin and eyes. Fire may produce irritating, corrosive and/or toxic gases. Vapors may cause dizziness or suffocation. Runoff from fire control or dilution water may cause pollution.
