About Enable Midstream Partners

Enable Midstream owns interstate and intrastate natural gas pipelines and a gas gathering operation as well as processing and treating services. In addition, we own crude oil gathering and hazardous liquid lines.

In east Texas, Enable Gas Transmission and Enable Mississippi River Transmission operate interstate transmission lines. Enable Midstream Partners operates gathering, liquid and intrastate natural gas transmission pipelines. In Leon and Robertson Counties, Enable Midstream Partners operates gas gathering lines. In Wheeler, Hemphill, and Lipscomb Counties in the panhandle, Enable Gas Gathering and Enable Midstream Partners operate gathering lines, Enable Gas Transmission operates interstate transmission lines and Enable Oklahoma Intrastate Transmission operates intrastate transmission lines. We operate processing plants in all three areas.
