About Company Name

We're a manufacturer of iconic yellow iron seen on industrial jobsites and farm fields worldwide. We're proud of our unique culture, lived out by the nearly 3,000 team members strong found around the world, but headquartered in the heart of the United States.

In 1948, a one-man job shop was established on a farm in central Iowa. The man behind it? Gary Vermeer. The second, and now third generations have taken what Gary started and transformed our company into a market-changing powerhouse recognized around the world.

Our customers don't come to Vermeer searching for a cookie-cutter product to do what's been done before. Looking to Vermeer, they find innovative products for niche markets to help them get their tough work done. Equally important, they choose Vermeer because of their local dealer, giving them the support they need, when they need it.

With every hole drilled, tree chipped, bale rolled and rock crushed, our customers are doing more. They feed and fuel the world. They manage our precious natural resources. They connect people to the necessities of life. With their yellow iron in hand, they are Equipped to Do More®.
